

## DISCUSSION OF CLASSROOM MANAGEMENT TOPICS

### Class 7

#### DISCUSSION

- Describe examples of what these aspects of classroom management looks like in the classroom.
- What are the connections of these aspects of classroom management to student learning?
- What are the consequences if the teacher does not pay attention to these aspects of classroom management?
- What strategies and/or tools does the classroom teacher have to address these aspects of classroom management?

#### ACTION

Based on your observations, discussions, and readings, come up with a list of 7 to 10 guidelines or suggestions that you would give to *beginning teachers* in middle school or high school. Phrase each statement in a *positive* direction. Write each suggestion on a separate index card. Be prepared to present your suggestions to the whole class.
