Large PVC: 1.67" OD, 1.37" ID, 24" long | Small PVC: 1.31" OD, 1.035" ID, 24" long

Possible uses:

1. Telescoping arms
2. Columns and posts

Tips:

The smaller pipe slides into the bigger pipe.

When incorporating the PVC into your device, account for the outer diameters.

Tools:

To modify you can use the following tools: Bandsaw, Johnson Saw, Hacksaw, Sander, Drill, Taps, Lathe, Mill

**CAUTION:** Be sure to use caution when using the bandsaw or sander to work on the PVC because round pieces can easily be thrown into the blade/sander. Be sure to have a firm grip on the piece.

Also, when using the sander, go slowly so that it does not get too hot.

You should not use: Grinder, Shear, Notcher, Brake, Wire bender
