

## TABLE OF CONTENTS

Personnel	vii
Publications and Reports	xii
Introduction	xix
I. Physical Electronics	1
II. Plasma Dynamics	3
Plasma Physics	3
Plasma Turbulence	3
Cyclotron Emission from Plasmas with Non-Maxwellian Distributions	6
Synchrotron Radiation and Negative Absorption by Nonthermal Electrons in a Magnetic Field	13
Local Instabilities Caused by Pressure Anisotropy in a Collisionless Plasma	17
Plasmas in Transverse Magnetic Fields	24
Plasma Electronics	29
Thermal Noise from Plasmas	30
Microwave Diagnostics of the Hollow-Cathode-Discharge Plasma	32
Measurement of a Dense Plasma in a Resonant Cavity	34
Power, Energy, Group Velocity, and Phase Velocity in Bidirectional Waveguides	37
Magnetohydrodynamic AC Generator	46
Dynamics of Ionized Gases	50
Preliminary Description of Experimental Apparatus to Be Used in Plasma Diffusion Study	56
Electron-Beam Trapping	59
Transport Coefficients Calculated from the Liouville Equation	65
Disappearance of Electric Current Perpendicular to the Magnetic Field in Plasma	70
Plasma Magnetohydrodynamics and Energy Conversion	73
Induction-Driven Magnetohydrodynamic Flow	74
III. Solid State Physics	79
IV. Low Temperature Physics	81
V. Statistical Thermodynamics	83
VI. Microwave Spectroscopy	85
Microwave Phonons and Their Absorption by F <sup>-</sup> centers	85

## CONTENTS

VII.	Nuclear Magnetic Resonance and Hyperfine Structure	87
	Molecular Reorientation and Nuclear Spin Relaxation in Hydrogen Gas	87
	Nuclear Resonance Linewidth in Solid Hydrogen Selenide	90
	Parity Conservation in Atoms and Molecules	91
	Hyperfine Structure and Isotope Shift in $Tl^{201}$ , $Tl^{202}$ , and $Tl^{204}$	92
	Hyperfine Structure and Isotope Shift in Natural Thallium	92
	Level Crossings in a Mercury Electrodeless-Discharge Lamp	93
VIII.	Microwave Electronics	97
	Two-Gap Klystron Cavity Calculations	97
	Large-Signal Behavior of Electron Beams	98
IX.	Molecular Beams	105
	Short-Term Stability of Cesium Atomic Clocks	105
X.	Thermoelectric Processes and Materials	109
XI.	Stroboscopic Research	111
XII.	Modulation Theory and Systems	113
	Feedforward across the Limiter	113
	The Oscillating Limiter	114
	Signal-Tracking Oscillator	115
XIII.	Statistical Communication Theory	117
	Measurement of the Kernels of a Nonlinear System by Crosscorrelation	118
	An Iterative Procedure for System Optimization	130
	Average of the Product of Gaussian Variables	137
	A Method for Locating Signal Sources by Means of Higher-Order Correlation Functions	141
	Optimum Compensation for Nonlinear Control Systems. II.	150
	Addenda	156
XIV.	Process Analysis and Synthesis	159
XV.	Processing and Transmission of Information	161

## CONTENTS

XVI.	Artificial Intelligence	163
	Integration	163
	LISP	164
	Chess	165
	Pattern Recognition with LISP	166
	Diagramming Sentences	167
	Advice Taker	168
	Review Paper and Bibliography	168
	Automata and Recursive Function Theory	169
XVII.	Physical Acoustics	171
	Properties of a Moving Acoustic Resonator	171
	Scattering of Sound by Sound	175
	Generation of Sound by Parallel Jets	175
XVIII.	Speech Communication	177
	Speech Analysis	177
	Analysis of Vowel Spectra	177
	Analysis of Vowel Duration	179
	Analysis of Fricative Consonants	181
	Analysis of Nasal Consonants	184
	Dynamic Analog of the Nasal Cavities	189
	The Learning of Ensembles of Speechlike Sounds	191
XIX.	Signal Detection by Human Observers	195
XX.	Mechanical Translation	197
XXI.	Linguistics	199
	Language -Generating Devices	199
XXII.	Communications Biophysics	213
	Cortical Responses to Shocks Delivered to Lateral and Medial Geniculate Bodies under Differing Retinal Conditions	215
XXIII.	Neurophysiology	223
	Alligator Olfaction	226
	Frog Audition	227
	Electrochemiluminescence	227

## CONTENTS

XXIV.	Neurology	229
	Environmental Clamping of Biological Systems	229
	Dynamic Characteristics of Motor Coordination	231
XXV.	Circuit Theory and Design	235
	Idler Circuits in Varactor Frequency Multipliers	235
XXVI.	Noise in Electron Devices	237
XXVII.	Network Synthesis	239
	Realization of an Open-Circuit Resistance Matrix	239
	A Normal Coordinate Transformation for an Arbitrary Linear Passive Network on Loop or Node Basis and Its Geometrical Interpretation	248
XXVIII.	Sensory Aids Research	261
XXIX.	Computer Study of the Dynamics of a National Economy	263
XXX.	Computer Components and Systems	265
	Author Index	267
