

# SUMMARY

**Shoumen Datta** ([shoumen@mit.edu](mailto:shoumen@mit.edu) & [sdatta8@mgh.harvard.edu](mailto:sdatta8@mgh.harvard.edu)) ▪ A relevant personal reflection <https://bit.ly/IPSO-FACTO>

Introductory résumé & complete CV version may be downloaded from the MIT Library <https://dspace.mit.edu/handle/1721.1/111021>

Select publications <https://bit.ly/Google-Scholar-SD>

Social media [www.linkedin.com/in/shoumendatta/](http://www.linkedin.com/in/shoumendatta/)

## PROFESSIONAL PREPARATION / EDUCATION

University of California Berkeley	School of Engineering	Communications Networking, 1995 (audit; # CS168)
University of California San Francisco	School of Medicine	Infectious Disease and Molecular Parasitology
Massachusetts Institute of Technology	Whitehead Institute	Human Genome Project (Eric Lander Lab) & Transcription
Harvard Medical School	Molecular Medicine	Tutor, 1 <sup>st</sup> year Medical School Curriculum (M.D.)
Massachusetts General Hospital	Harvard Medical School	Fellow in Medicine (Research) Neuro/Endocrine/Oncology
UCSF School of Medicine, CA	School of Pharmacy	Pharm.D., 1998 (awarded)
Rutgers University, NJ	School of Medicine	Ph.D., 1989 (Molecular Biology, Virology, Microbiology)
Princeton University, NJ	Research Collaboration	Department of Molecular Biology (Lewis Thomas Labs)
University of Pittsburgh, PA	Molecular Biology	M.S., 1985 (Molecular Biology)
Presidency College, India	Biochemistry	B.Sc., 1980 (Physiology, Physics, Chemistry)

## SELECT APPOINTMENTS / AFFILIATIONS

1999-present	Research Affiliate	MIT Auto-ID Center, MIT, Cambridge, MA
2014-present	Senior Scientist	MGH, Harvard Medical School, Cambridge, MA
2001-2010	Executive Director	MIT Forum for Supply Chain, MIT, Cambridge, MA
2001-2004	Strategy & Management	MIT Sloan School of Management
2013-2016	Senior Vice President	Industrial Internet Consortium (IIC)
2015-present	Purdue University	Affiliated with NSF I/UCRC at Purdue for Robots & Sensors
2006-2021	Bordeaux, France	Entrepreneurial Innovation; Supply Chain Innovation
1999-2002	Supply Chain, Software	SAP Labs (Palo Alto, CA); SAP AG (Waldorf), SAP Japan
1995-1998	Assistant XV to Mayor	City and County of San Francisco, CA (appointed to SFUSD)
1998-1999	Visiting Fellow	Cisco Systems, San Jose, CA (Cisco Networking Academy)
1999-present	Consulting	List of companies/governments in full CV (MIT Library link)

SHOUMEN PALIT AUSTIN DATTA

**EDUCATION & TRAINING**

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO (UCSF SCHOOL OF PHARMACY) PHARM.D. ( <i>awarded</i> )	1998
UNIVERSITY OF CALIFORNIA, BERKELEY Communications Network Engineering ( <i>audit</i> )	1995
UNIVERSITY OF CALIFORNIA, SAN FRANCISCO (SCHOOL OF MEDICINE) Post-doctoral Training (Molecular Parasitology & Infectious Diseases)	1994-1995
MASSACHUSETTS INSTITUTE OF TECHNOLOGY, CAMBRIDGE, MA Post-doctoral Training (Molecular Biology & Human Genome Project)	1991-1994
HARVARD MEDICAL SCHOOL, MASSACHUSETTS GENERAL HOSPITAL Post-doctoral Training (Fellow in Medicine) Molecular Oncology & Neuro-Endocrinology	1989-1991
RUTGERS UNIVERSITY SCHOOL OF MEDICINE, NEW JERSEY PhD in Molecular Biology (Biochemistry, Genetics, Virology, Microbiology)	1990
PRINCETON UNIVERSITY, NEW JERSEY PhD research collaboration (molecular virology and peptide synthesis)	1986-1987
UNIVERSITY OF PITTSBURGH, PENNSYLVANIA Master's degree (eq) in Molecular Biology	1985
PRESIDENCY COLLEGE, UNIVERSITY OF CALCUTTA Bachelor's degree (Honours) in Physiology and Biochemistry (Physics and Chemistry, minors)	1980
UNIVERSITY OF CAMBRIDGE, UK Indian School Certificate, Local Examinations Syndicate	1975

**PROFESSIONAL EXPERIENCES**

## Harvard Medical School

- Fellow in Medicine (Research) / Research Fellow, Harvard University 1989-1991
  - Massachusetts General Hospital, 55 Fruit St, Boston, MA 02114
    - Molecular endocrinology; Thyroid Laboratory
    - Neuro-endocrine tumors; Neuro-endocrine Laboratory
    - Transcriptional regulation *in vitro* by Thyroid Hormone Receptors
    - Mechanism of action of Glucocorticoid / Thyroid Receptors
    - Human Thyroid Hormone Receptor (hTHR) recombinant protein production
    - Baculovirus recombinant protein purification; Isolation of recombinant hTHR
    - Molecular Medicine: molecular oncology - treatment regimen of thyroid cancer

## Harvard Medical School

(continued)

- Instructor in Biochemistry and Metabolism 1990-1993
  - Harvard Medical School, 25 Shattuck St, Boston, MA 02115
    - Teaching first year medical (MD) students
    - Tutor in New Pathway System (biochemical physiology, metabolic regulation]
- Senior Scientist **2014-present**
  - Massachusetts General Hospital
    - Partners Healthcare Research Building, 65 Landsdowne St, Cambridge, MA 02139
      - Department of Anesthesiology (Research)
      - Medical Device Interoperability - MDPnP (Medical Device Plug-n-Play) Lab
      - Cybersecurity issues - device, data, network, wired/wireless transmission, EHR
      - Medical Internet of Things (IoT) and medical device cybersecurity risks/threats
      - Medical device integration for patient safety (infectious diseases, Ebola virus)
      - Patient-centric integration of data (fusion) for physiological status (information)
      - Device data convergence platform (post-surgical patient controlled analgesia)

## Massachusetts Institute of Technology

- Research Associate, Whitehead Institute (for Biomedical Research) 1991-1994
  - Transcriptional regulation in yeast (*Saccharomyces cerevisiae*)
  - Protein chemistry (purification of individual transcription factors)
  - Transcriptional reconstitution of RNA Polymerase II initiation complex *in vitro*
  - RNA Polymerase II dependent gene expression and regulation
  - Human Genome Project (sequencing of the human genome transforms biology)
    - Yeast Artificial Chromosomes (YAC)
    - Optimization of human genome packaging in YACs
- Technology Board Member, MIT Auto-ID Center 1999-2004
  - Radio frequency identification (RFID) using electronic product code
  - Standardization of the RFID electronic product code (EPC)
  - Global consortium to demonstrate item level application of RFID EPC
  - Connecting objects with object (things) data to create the Internet of Things
  - RFID and Internet of Things (IoT) transforms the transparency of location id
  - RFID and IoT ushers in the digital supply chain and digital transformation
- Co-Founder and Executive Director, MIT Forum for Supply Chain Innovation 2001-2006
- Research Director, MIT Forum for Supply Chain Innovation 2006-2009
- Research Scientist, Engineering Systems, Civil and Environmental Engineering 2001-2009
  - Created consortium to explore emerging trends in global supply chains
  - RFID item-level data for supply chain management (SCM) decision support
  - High volume granular data (RFID and IoT) in forecasting / predictive analytics
  - Forecasting tools using error-correction techniques from financial econometrics
  - Applying GARCH (generalized autoregressive conditional heteroskedasticity)
  - Advising US and other foreign governments and global corporations (SCM)
  - Innovation courses (Sweden, Finland, France, Germany, Taiwan, Japan, India)
  - US Army (DoD) logistics
  - Education (teaching) related to SCM strategy and operations management

Massachusetts Institute of Technology (continued)

- Board Member, MIT Data Center 2003-2006
  - Barriers to software integration (syntax/semantics/standards)
  - M-language (a numerical model for semantics)
  - Digital semantics using 128-bit IPv6 (internet protocol version 6) as a format
  - Agent-based models for predictive analytics (using data integration / fusion)
- MIT Sloan School of Management 2003-2006
  - Executive Education: Strategy and Management (co-lecturer)
  - MIT-Singapore Alliance: Forecasting (guest lecturer)
  - MIT Sloan Fellows Program: Digital Supply Chain (guest lecturer)
- Member, MIT Energy Initiative 2008-2009
  - Energy efficiency
  - Mesh network of sensors for energy optimization
  - Wireless sensor networks (WSN) in monitoring / energy savings (start-up)
- Research Affiliate
  - Department of Mechanical Engineering, School of Engineering **2014-present**
  - Senior Member, MIT Auto-ID Labs, Dept of Mechanical Engineering **2014-present**
    - Internet of Things (IoT) from concepts to implementation
    - Industrial IoT
    - Medical IoT
    - Cybersecurity (IoT)
    - Digital Twins

Industrial Internet Consortium (IIC) 2013-2016

- Founding Senior Vice President, IIC
- Affiliated with Object Management Group
  - Created consortium for the future of industrial internet of things (IIoT)
  - Semi-autonomous freight transportation initiative (SAFTI)
  - Medical IoT and medical device interoperability standards
  - European Union Horizon 2020 Industrie 4.0 programs (grant funding)
  - NIST CyberPhysical Systems, Smart Cities and Timing (working groups)

Purdue University **2015-present**

- Purdue Polytechnic
  - School of Engineering Technology
  - National Science Foundation - Industry/University Center for Research Collaboration
  - Robotics Accelerator
    - NSF I/UCRC - Robots and Sensors for Human Well Being (RoSeHuB)
    - Consortium to advance collaborative robotics

USDA (US Department of Agriculture)

2018-present

- National Institute for Food and Agriculture (NIFA)
  - SmartPath CoE (Center of Excellence)
    - Research coordinator for multi-university project (sensors in agri-systems)
    - University projects involve research, teaching and extension (field applications)
    - Research related to use of printed graphene sensors for contaminants/microbes
    - Sensor data and analytics to optimize information-informed decision support
    - Data fusion/platforms for convergence of data to extract actionable information
    - SmartPath Universities:
      - ◆ University of Florida
      - ◆ University of Iowa
      - ◆ University of Maryland
      - ◆ University of Wisconsin
      - ◆ Texas Agricultural & Mechanical University
      - ◆ Clemson University

NIH (National Institutes of Health, US Department of Health and Human Services)

2020-present

- RADx-RAD (RADx<sup>SM</sup> Radical Program)
  - Clemson University, BioSystems Engineering, Computing & Applied Science (ECAS)
    - Non-traditional diagnostics for CoVID-19 testing and public health surveillance
    - Effective and efficient tests to identify SARS-CoV-2 virus and its variants
    - Platform tools to detect and combat emerging/future infectious disease agents
    - Mobile-connected, low-cost, lab-less, rapid tests for anytime-anywhere use
    - Mobile data crowd-sourcing and in-network analysis to monitor transmission
    - Real-time data-informed predictive models, data distribution, decision support

SAP (Systeme, Anwendungen und Produkte in Der Datenverarbeitung, Walldorf, Germany)

- SAP Labs, Palo Alto, California, USA 1999-2003
- SAP AG, Walldorf, Baden-Württemberg, Germany 2000-2003
- SAP Japan, Otemachi, Chiyoda, Tokyo, Japan 2000-2003
  - Principal Investigator, Software Application Development
  - Strategic Innovation (RFID data-informed digital supply chain operations)
  - Global initiatives and management of technological innovation
  - Supply Chain systems: high tech business, e-commerce, semiconductor industry
  - Strategic Technology Advisor (Advanced Planner & Optimization, SAP Japan)
  - Adaptability of (business) networks using RFID, IoT and Agent-based software
  - Public communication (ghost writer, books)
  - Store of the Future (global corporate team for in-store RFID implementation)

Associated Scientists

1996-1999

- President and Co-Founder
- Founder & Executive Director, Glenn T Seaborg Endowment for Excellence in Education
  - Initiative to improve K-12 curriculum in mathematics and science, State of California
  - Foundation to support professional development of K-12 STEM teachers, California
  - Scale the Josephine Miles Fellows Program, University of California, Berkeley

- Eagle Alliance 1998-1999
- Senior Advisory Council
  - Public Understanding of Science, Dept of Nuclear Engineering, Texas A&M University
    - Public awareness about nuclear waste storage and disposal
    - Public literacy about under-utilization of safe nuclear energy
    - Public communication about the energy economics of dependence on fossil fuels
- National Information Technology Task Force (National IT Workforce Development) 1997-1998
- Chairman of the Task Force
  - US Departments of Commerce, Labor and Education
  - White House Council of Economic Advisors
  - Information Technology Association of America (ITAA)
  - University of California, Berkeley
    - Policy advisory task force
      - Skills shortage and its local/global economic impact
      - Secondary and post-secondary (community colleges) engagement
      - Initiatives for IT workforce development (up-skilling/re-skilling, re-training)
    - Cisco Networking Academy – national program rollout
      - Cisco Fellow at Cisco Systems, 170 West Tasman Drive, San Jose, CA 95134
      - Networking as a part of the high school curriculum (implemented in SFUSD)
- City and County of San Francisco, California 1995-1997
- Special Assistant [Title XV], Office of the Mayor, City and County of San Francisco
  - Special Assistant to Superintendent of School, San Francisco Unified School District (SFUSD)
  - Director of Development and Strategic Technology, San Francisco Unified School District
    - Mathematics and Science (STEM) in SFUSD high schools and middle schools
      - High school program in molecular biology and recombinant DNA laboratories
      - Teacher recruitment
      - Assistance with curriculum and professional development (content, training)
      - Science Education Partnership (SEP) with UCSF School of Medicine
      - Teacher development program with University of California, Berkeley
      - Distinguished Lecture Series in high schools
    - Management and administration of technology infrastructure for SFUSD
      - Connecting schools to the internet
      - Co-organizer of NetDay 1996
      - Co-founded Cisco Networking Academy at Thurgood Marshall Academic HS
      - Online Interactive University Project (MOOC) between UC Berkeley / SFUSD
      - Grant funding for SFUSD network (US Department of Commerce, Pacific Bell)
      - Computers for Schools Program (NASA Ames, Detwiler Foundation)
- University of California School of Medicine, San Francisco (UCSF), California 1994-1995
- Research Scientist, UCSF - UC Berkeley Program in Molecular Parasitology
  - Instructor in Human Genetics (for first year MD students)
    - Infectious Diseases and Molecular Parasitology
      - Trypanosomiasis (*Trypanosoma brucei*)
      - Developed *in vitro* transcription assay
      - Variant surface glycoprotein VSG & procyclic acidic repetitive protein PARP
      - RNA Polymerase II and III transcription from VSG & PARP promoters *in vitro*
      - Developmental aim: molecular targets for pharmacological drugs and inhibitors

**SKILLS**

- US Federal Information Security Management Act FISMA
- NIST Cybersecurity Framework for Internet of Things (IoT) / IIC Framework for Industrial IoT Cybersecurity
- Internet of Things (IoT) / Industrial Internet of Things (IIoT) / Medical Internet of Things (MIoT)
- Medical Devices and Data Interoperability / Integrity
- Healthcare Cybersecurity Risks and Data Confidentiality
- CyberPhysical Systems / concept of system of systems
- Time Sensitive Networks / Assurance in software systems
- Autonomous vehicles /collision avoidance issues
- Digital transformation / Digital Twins
- Electronic health/medical records (EHR/EMR)
- Operation Theatre of the Future (Healthcare)
- Digital health / remote monitoring for at-home health
- IPv4, IPv6, principles of machine learning (ANN, AI)
- Trans-disciplinary/multi-disciplinary convergence
- Microsoft Office, project management, decision support
- Business development and entrepreneurial innovation
- Sensors / Wireless Sensor Networks
- Sensor data / information from data
- Energy sensors / smart cities
- Water and food sensors / agri systems
- Waste-water surveillance (viruses)
- Descriptive, Predictive, Preventive Analytics / Platforms for data fusion
- Econometric techniques in analytics
- Supply chain, operations management
- Forecasting, supply network planning
- RFID data in digital supply chain
- Training / workforce development
- Teaching / executive education
- STEM / public & community outreach
- Communication (verbal and written)
- Organization (conference, consortium)
- Building organizations/centers/forums
- Thought leadership / connecting dots

**RESEARCH SUPERVISION and STUDENT ADVISING**

<b>Year</b>	<b>Student</b>	<b>Purpose</b>	<b>Field</b>	<b>Institution</b>
1982-83	L. Pallan	Senior Thesis	Pre-Med	University of Pittsburgh, Neuro-Surgeon
1987-88	M. Losada	Junior Thesis	Molecular Bio	Rutgers University, Merck Research
1989	S. Saha	Outreach	Medicine	Harvard University, UCSF
1990-91	S. Magge	Senior Thesis	Medicine	Harvard, Yale, Johns Hopkins
1992	T. Galvao	Advising	Molecular Bio	MIT, University of Cambridge
1992	N. Tang	Advising	Chemistry	MIT, Yale University
1993	S. Magge	Advising	Medicine	Harvard, Yale, Neuro-Surgeon
1993	A. Mukherji	Advising	Medicine, Law	Harvard University
1994	L. O'Brien	PhD Research	Infectious Dis	UCSF Medical School
1997	A. Pritikin	Advising	General Studies	Harvard University
1998	H. Fu	Advising	Engineering	MIT, Harvard, US DoE
2001	Y. Soga	Internship	Business	Oxford University, Finance
2001	A. Vora	Advising	General Studies	Harvard University
2004	H. Fu	Sponsor	Green Policy	British Parliament
2004	T. Shean	Advising	Physics	University of Cambridge
2004	D. Graham	Research	Econometrics	Institute for Defense Analysis
2005	K. Phillip	Research	Management	Trinity College Dublin (Ireland)
2007	K. Zukova	MS Thesis	Supply Chain	Chalmers University (Sweden)
2008	M. Marchena	PhD Thesis	Data Analytics	University of Sao Paulo (Brazil)
2013	T. Peerson	Advising	Chemistry	APL, Johns Hopkins University
2014	A. Boy	Advising	SCM OPS	KEDGE BS (Bordeaux, France)
2015	L. Gorantala	Advising	Neuroscience	University of Washington, Seattle
2017	A. Boussera	Advising	Public Policy	United Nations (NY), UNESCO (Paris)
2017	A. El-Adl	Advising	CS, Neurology	Yale University
2018	S. Swanson	Advising	Computer Sci	University of Florida
2019	C. Johnson	Advising	Engineering	MIT

**SELECTED LIST OF TEACHING EXPERIENCES**

1981-1985	Teaching Assistant in Genetics, Microbiology and Virology, University of Pittsburgh
1986-1988	Instructor in Molecular Biology and Microbiology, Rutgers University
1990-1993	Instructor in Molecular Medicine, Harvard Medical School, Harvard University
2000	Guest Lecturer, MBA Program, Haas School of Business, UC Berkeley
2000	Lecturer, MBA, L'Ecole Supérieure des Sciences Economiques et Commerciales, Paris
2001	Visiting Lecturer, School of Engineering, University of Cambridge, UK
2002-2004	Guest Lecturer, Logistics and Supply Chain (MIT Graduate Course 1.270 / ESD.273)
2002-2004	Co-Lecturer, Supply Chain Strategy & Management, MIT Sloan School of Management
2003-2004	Co-Lecturer, Advanced Logistics and SCM Strategies, MIT-Singapore Alliance, MIT
2004-2005	Lecturer in Strategic Innovation, Sloan Fellows, MIT Sloan School of Management
2004	Guest Lecturer, Auto-ID in Supply Chain Management, HEC, Montreal, Canada
2005-2007	Visiting Lecturer, MBA Program, Trinity College, Dublin, Ireland
2006-2007	Visiting Faculty, Supply & Demand Chain Innovation, Chalmers University, Sweden
2006-2007	Guest Lecturer, Innovation in SCM Operations, Indian Institute of Management AMD
2006-2021	Innovation SCM, Institut Supérieur de Logistique Industrielle, Bordeaux (KEDGE BS)
2010-2013	Instructor in Chemistry, Biological Sciences, Anatomy and Physiology, Biotechnology
2022	Virology, Faculdade de Filosofia, Ciência e Letras de Ribeirão Preto, Univ of São Paulo

**ADVISING and CONSULTING – CORPORATIONS (1999-2019)**

Disclosure of topics and statements of work are prohibited to remain in compliance with NDAs

IBM	Digital Value Networks
GE	Industrial IoT ▪ RFID, UWB, Sensors, IPv6 ▪ Predictive Analytics ▪ Supply Chain
P&G	Transparency of SCM ▪ Data Flow ▪ RFID and Agents in Supply Demand Systems
Koch	Digital Transformation ▪ IoT and IIoT Data, AI, Analytics ▪ Sensors, nanotech
PepsiCo	Supply Chain Management (SCM)
Xerox	Intelligent PLM (product life cycle management)
Intel	RFID, digital SCM in retail store of the future ▪ Autonomous Transport ▪ IIoT
Volvo	Intelligent Decision Systems
Tata (Tata Steel)	Supply Chain Planning and Optimization
Siam Cement	Supply Chain Planning and Optimization ▪ Energy Efficiency ▪ Sensor Networks
Michelin	Inventory Optimization ▪ Operations Management ▪ RFID in Asset Management
Hitachi	RFID in track and trace ▪ IoT and the industrial internet ▪ Digital Transformation
Airbus	RFID in track and trace ▪ Spare parts inventory management
General Motors	RFID in track and trace ▪ Spare parts inventory management
AAR	RFID in track and trace ▪ SCM inventory management ▪ Data, Analytics, AI
Kone	Intelligent PLM (product life cycle management), digital supply chain management
Nokia	Intelligent PLM (product life cycle management), digital supply chain management
Chi-Mei	Digital interfaces in healthcare infrastructure
LogicaCMG	SCM and the evolution of value networks
CapGemini	RFID and digital supply chain ▪ IoT
Sony	RFID in semiconductor industry transparency, Global Logistics, Decision Systems
Mitsubishi	RFID in heavy industry asset management and local positioning systems (LPS)
TEPCO	Internet infrastructure. IPv6. Semantic Interoperability between intelligent systems
Huawei	IoT / Digital Transformation. Data, Analytics, AI. Intelligent Decision Systems.
TCS	Data and AI ▪ Digital Transformation ▪ Robotics and Automation
Fujitsu	IoT and Industrial Internet ▪ Data, Analytics and AI
TechMahindra	IoT/IIoT ▪ Data, Analytics, AI ▪ Medical Devices ▪ Interoperability ▪ Cybersecurity
Accenture	IoT/IIoT ▪ Data, Analytics, AI ▪ Digital Twins and Digital Transformation of SCM
Deloitte	Healthcare Information Technology (HIT)
Braun	Medical Devices ▪ Interoperability ▪ Cybersecurity
Infosys	IoT and Industrial Internet ▪ Data, Analytics, AI ▪ Autonomous Transportation

**ADVISING and CONSULTING - GOVERNMENTS and AGENCIES (2001-2019)**

Disclosure of topics and statements of work may be unprofessional or violate prior agreements

AOK (DE)	Digital Transformation in Healthcare ▪ Cybersecurity ▪ Data, Analytics, AI
WCO (EU)	Security/Cybersecurity in global logistics ▪ Standards for security harmonization
DHS (US)	Risk in security ▪ ACE Program
ITRI (TW)	IoT and Industrial Internet ▪ SCM ▪ Sensors and energy efficiency
III (TW)	RFID, IoT, IIoT ▪ Digital SCM ▪ Data, Analytics, AI ▪ Cybersecurity ▪ FinTech
MOEA (TW)	IoT and Industrial Internet ▪ Digital SCM ▪ Data, Analytics, AI ▪ Education Tech
STAG (TW)	RFID and Digital SCM
TEKES (FI)	Science/Technology (Innovation, SCM, PLM, Data, Analytics, IoT, Cybersecurity)
Ireland	Prime Minister's Task Force for Innovation (Energy)
India	Customs Bureau, Ministry of Finance
DoD (US)	US Army Materiel Command, Defense Logistics Agency
GAO, NAS (US)	Cybersecurity ▪ IoT and Industrial IoT
DoC (US)	Workforce and Education for Economic Growth (National Task Force 1997-1998)
California (State)	Special Assistant to Mayor of San Francisco, K-12 Education <a href="http://bit.ly/SD-K12">http://bit.ly/SD-K12</a>
NIST (US)	Public Working Groups: IoT, Cyberphysical Systems, Timing in Software Systems

**SELECTED LIST OF EXPERIENCES, ENGAGEMENTS & EVENTS**

1995	Berkeley Pledge Steering Committee, Office of the Chancellor, University of California
1996	National Net Day Organizing Committee (Connected K-12 schools to the public internet)
2004	Board of Overseers, MIT-Chile Project (MIT alliance with Government of Valparaiso)
2005	UN-UNDP Mission to China (Expert Group for South-South Technical Cooperation)
2005	Invited Member, President of Taiwan Science and Technology Advisory Group, Taiwan
2005	Seminar, Transparency in Supply Chain, US Department of Homeland Security (DHS)
2005	Invited Speaker, Council of Members, World Customs Organization, Brussels (Belgium)
2005-2006	Advisor to the Secretary General, World Customs Organization, Brussels (Belgium)
2006-2007	Co-Investigator, SMART Project (Funded by European Commission), Trinity College, IR
2006-2021	Innovation in SCM, Institut Supérieur de Logistique Industrielle, KEDGE, Bordeaux, FR
2008-2009	Co-Founder, Centre for Innovation in Distributed Systems; Member, Innovation Ireland
2014	The Industrial Internet of Smart Things – Institute for Information Industry, Taipei, ROC
2014	Organizer • IIC Forum – <i>A Sense of the Future</i> (Austin, Texas)
2015	International Telecommunication Union <a href="#">Forum on IoT</a>
2015	Cofounder, ISAAAC (Advisory Group for Science & Technology) - Madrid & Munich
2016	IoT Policy Panel, US GAO / National Academy of Science (NAS) / Engineering (NAE)
2017-present	Advisor • Advanced Silicon Group • <a href="http://www.advancedsilicongroup.com/">http://www.advancedsilicongroup.com/</a>
2018	Co-organizer • Nanotech in Food (SmartPath, NIFA, USDA)
2020	NSF I-CORPS • IoT Project, School of Engineering Technology, Purdue University
2020-2023	Advisor, SARS-CoV-2 nanosensors, NIH Grant 1U01AA029328-01, Clemson University

**IDEAS & INNOVATION - INVITED TALKS & EVENTS**

- 1995 Berkeley Pledge Steering Committee, Education Outreach, University of California
- 1996 National Net Day Organizing Committee
- 1996-1999 Eagle Alliance, Advisory Board
- 2000 Guest Lecturer, Haas School of Business, University of California at Berkeley
- 2000 Guest Lecturer, MBA Program, ESSEC, University of Paris, Paris, France
- 2001 Guest Lecturer, University of Cambridge School of Engineering, Cambridge, UK
- 2002-2004 Lecturer, Supply Chain Management Executive Programs, MIT Sloan School
- 2002-2004 Guest Lecturer, Logistics & Supply Chain (MIT Graduate Course 1.270/ESD.273)
- 2002 Keynote Address, Supply Chain Council (SCOR), Mexico City, Mexico
- 2002 Keynote Address, Supply Chain Summit, Montreux, Switzerland
- 2002 Executive Program (Future of SCM), Saint Gobain ([www.saint-gobain.com](http://www.saint-gobain.com))
- 2003 Chairman, Executive Advisory Board, Telecommunication Summits
- 2003 Keynote Address, IP Summit, The Hague, The Netherlands
- 2003 Plenary Address, LogiChem, Frankfurt, Germany
- 2003 Invited Address, Supply-Chain World of North America, Atlanta, Georgia, USA
- 2003 Chairman, European Supply Chain Summit, Luzern, Switzerland
- 2003 Session Chair & Invited Speaker, InterLog Conference, Dusseldorf, Germany
- 2003 Chairman, Retail Revolution Europe Conference, The Hague, Netherlands
- 2003 Panelist, 3<sup>rd</sup> INTEL Executive Summit, San Francisco, California, USA
- 2003 Invited Seminar, GE Global Research, New York
- 2003 Chair and Keynote Speaker, LogiCon Interactive Conference, Barcelona, Spain
- 2003 Invited Keynote Speaker, LogicaCMG Forum, Amsterdam, The Netherlands
- 2003 Invited Keynote Speaker, Forum on Automation Technologies, Government of Taiwan
- 2003-2004 Team Lecturer, MIT-Singapore Alliance (Advanced Logistics & SCM Strategies), MIT
- 2004 Board of Overseers, MIT-Chile Project (MIT alliance with Govt of Valparaiso, Chile)
- 2004 Keynote Address, Electronics Manufacturers Association, San Jose, California
- 2004 Keynote, Government of Finland Science and Technology Council, TEKES (Helsinki)
- 2004 Invited Panelist (AAIA), Technical Excellence in Aviation, Missiles & Space (US DoD)
- 2004 Invited Speaker, Redstone Arsenal-Huntsville Military Operations Research Section
- 2004 Invited Speaker, MIT-INFORMS Practice Conference, Cambridge, Massachusetts
- 2004 Invited Panelist, CIO Roundtable, Airline Transportation and Retail Industries, Dallas
- 2004 Invited Speaker, National Economic and Social Development Board, Govt of Thailand
- 2004 Invited Keynote Speaker, E-Business Forum, Ministry of Economic Affairs, Taiwan
- 2004 Keynote Speaker, Fourth SCM Forum (Helsinki, Finland)
- 2004 Executive Workshop, KONE Corporation (Espoo, Finland)
- 2004 Keynote, 4<sup>th</sup> SCM CEO Summit, Hong Kong Article Nomenclature Association, GS1 HK
- 2004 Guest Speaker, MIT Sloan Fellows Program
- 2004 Executive Workshop, PoweredCom Inc (Tokyo Power and Electric Company, Japan)
- 2004 Advisor, TagArray Inc
- 2005 Keynote, ICT-RFID Summit, California Polytechnic State University, San Luis Obispo
- 2005 Invited Speaker, École des Hautes Etudes Commerciales of Montreal (HEC, Montreal)
- 2005 Keynote Speaker, World Customs Organization IT Conference, Istanbul (Turkey)

**IDEAS & INNOVATION - INVITED TALKS & EVENTS****(continued)**

- 2005 UN-UNDP Mission to China (Invited Expert Group for South-South Technical Coop)
- 2005 Invited Member, President of Taiwan Science and Technology Advisory Group, Taiwan
- 2005 Visiting Scholar, IIS, Trinity College, Dublin (Ireland)
- 2005 Advisor, SandLinks Inc
- 2005 Seminar, Transparency in the Supply Chain, US Department of Homeland Security
- 2005-2007 Keynote Speaker and Co-Organiser, SCM Forum, Helsinki (Finland)
- 2005 Invited Speaker, Council of Members, World Customs Organization, Brussels (Belgium)
- 2005-2006 Advisor to the Secretary General, World Customs Organization, Brussels (Belgium)
- 2006 Keynote, Chalmers University Executive Education Program, Gothenberg, Sweden
- 2006 Speaker, Innovation in Logistics, Ministry of Transport & Communication, Helsinki, FI
- 2006 Co-organizer, WCO Education Series in Globalisation and Interoperability, Brussels, BE
- 2006-2011 Advisor, Technical Strategy and Innovation, Decision Systems Lab, GE Global Research
- 2006 Invited Speaker, 6<sup>th</sup> Agribusiness Summit, Lexington (Kentucky, USA)
- 2006 Member, Advisory Committee, California Agricultural Leadership Foundation
- 2006 Advisor, State Board, California Department of Agriculture (Advisory Committee)
- 2006 Keynote Speaker, World Customs Organization IT Conference, Bangalore, India
- 2006 Invited Speaker, IIS-Intel Conference, Trinity College Dublin, Ireland
- 2006 Lecturer, Dept of Technology Management & Economics, Chalmers University, Sweden
- 2006-2007 Co-Investigator, SMART Project (Funded by EU), Trinity College Dublin, Ireland
- 2006-2021 SCM Innovation, Institut Supérieur de Logistique Industrielle, BEM-KEDGE, Bordeaux
- 2007 Visiting Lecturer, MBA Program, Trinity College Dublin, Ireland
- 2007 Invited Speaker, Indian Institute of Management, Ahmedabad, India
- 2007 Keynote, ELTRUN Supply Chain Innovation and RFID Symposium, Athens, Greece
- 2007 Visiting Lecturer, Athens University of Economics and Business, Athens, Greece
- 2007 Invited Speaker and Research Paper, NOFOMA Annual Conference, Reykjavik, Iceland
- 2007 Guest Speaker, Educator's Day, University of Iceland and Reykjavik University, Iceland
- 2007 Advising, Pervasive Decisioning Systems Laboratory, GE Global Research, New York
- 2007 Invited Speaker & Visiting Faculty, Lappeenranta University of Technology, Finland
- 2007 Seminar, US Department of Homeland Security, Washington DC
- 2008 Member, Editorial Board, International Journal of Electronic Business Management
- 2008 Invited Speaker, DRIVE for Growth Conference (Killarney, Ireland)
- 2008-2009 Research Advising and Entrepreneurship, Institute of Technology, Tralee, Ireland
- 2008-2009 Co-Founder, Centre for Innovation in Distributed Systems (CIDS) at ITT ([www.imar.ie](http://www.imar.ie))
- 2008 Co-Organizer, *Is Connecting Bits to Atoms Sufficient?* CIDS, IT Tralee, Ireland
- 2008 Visiting Lecturer in International Business, School of Business Studies, Trinity College
- 2008 Co-Organizer, *Is Forecasting Necessary?* CIDS, IT Tralee, Ireland
- 2008 Co-Organizer, *A Sense of Silence in Medicine?* CIDS, IT Tralee, Ireland
- 2008 Co-Founder and Start-up Advisor, DCS ENERGY SAVINGS PVT LIMITED
- 2009 Invited Speaker, SCM Forum IX, Helsinki (Finland)
- 2009-2010 Member and Affiliate, MIT Energy Initiative
- 2009 Start-up Advisor, InGRID ENERGY LLC (USA & IRELAND)

**IDEAS & INNOVATION - INVITED TALKS & EVENTS****(continued)**

- 2009 Visiting Lecturer, National Cheng Kung University & National University of Tainan
- 2011 Invited Seminar, Dept of Technology Management & Economics, Chalmers University
- 2012 Chair, Biofuel Engineering, 2<sup>nd</sup> World Congress of Bio-Energy, China
- 2013 Keynote • ISLI 25<sup>th</sup> Year Symposium, École Supérieure de Commerce de Bordeaux, FR
- 2014 Keynote • MOOC & Digital Education - Presidents' Forum of Southeast Asia (Taiwan)
- 2014 The Industrial Internet of Smart Things – Institute for Information Industry, Taipei, ROC
- 2014 Senior Advisor at Catallyst Constellations ([www.catconglobal.com](http://www.catconglobal.com))
- 2014 Invited Speaker and Panelist at the CSC Aspire Conference on IoT
- 2014 Invited Seminar Speaker on Cyberphysical Systems at ISIS, Vanderbilt University
- 2014 Keynote, IoT Forum at MIT ([www.iot-conference.org/iot2014/keynote-speakers/](http://www.iot-conference.org/iot2014/keynote-speakers/))
- 2014 EU-US Summit Speaker at the IoT Forum at MIT (BILAT USA 2014)
- 2014 Organizer • IIC Forum – *A Sense of the Future* (Austin, Texas) [www.iiconsortium.org](http://www.iiconsortium.org)
- 2015 Invited Keynote – Planning the Future Together – [25<sup>th</sup> Forum](#) at ISLI, KEDGE, Bordeaux
- 2015 Invited Speaker - Future Strategies Workshop at Huawei Corporation
- 2015 Invited Speaker - Future Strategies Workshop at Mitsubishi Corporation
- 2015 Panelist – STEM Education, National Robotics Initiative at The White House ([OSTP](#))
- 2015 NITRD Ontology Summit <http://ontolog.cim3.net/OntologySummit/2015/schedule.html>
- 2015 Keynote • EU IoT, Lisbon, Portugal • <http://iot-week.eu/events/iot-week-lisbon/>
- 2015 Keynote • CEA LETI in Grenoble, France • <http://bit.ly/GRENOBLE-24JUNE2015>
- 2015 Keynote • Tokyo University of Science, Tokyo, Japan • <http://bit.ly/TUS-IOT-DATTA>
- 2015 Keynote • [Global Forum](#), Oulu, Finland • [www.youtube.com/watch?v=1A2xTluGPjM](http://www.youtube.com/watch?v=1A2xTluGPjM)
- 2015 Keynote, Tampere U • [www.openlivinglabs.eu/event/global-forum-shaping-future-2015](http://www.openlivinglabs.eu/event/global-forum-shaping-future-2015)
- 2015 Keynote, TEKES (Helsinki) • <https://tapahtumat.tekes.fi/event/internationalcollaboration>
- 2015 Invited Speaker • Institute for Information Industry, Taipei (Taiwan)
- 2015 International Telecommunication Union [Forum on IoT](#) • <http://bit.ly/ITU-GENEVA-IoT>
- 2015 Invited Speaker • Korea Aerospace University (South Korea)
- 2015 Keynote • South Korea IoT 2015 • <http://www.iot-conference.org/iot2015/program/>
- 2015 Invited Speaker • Strategic Advisory Council – Huawei Corporation
- 2015 Invited Speaker • University of Salamanca (Spain)
- 2015 Invited Keynote • III – Big Data Conference (Taipei, Taiwan)
- 2015 Invited Keynote • Healthcare IoT Forum at NCKU (Tainan, Taiwan)
- 2016 Invited Speaker • Mobile World Congress (Barcelona, Spain)
- 2016 Keynote and Organizing Committee – Industrial Chair for ILS, Bordeaux, France
- 2016 Invited Keynote • Industrial IoT Summit • [www.industrialiotseries.com/usa/](http://www.industrialiotseries.com/usa/)
- 2016 Keynote • Future Manufacturing, Shanghai • [www.futuremanufacturingworld.com/](http://www.futuremanufacturingworld.com/)
- 2016 Invited Speaker • Strategic Advisory Board – TE Connectivity
- 2016 Invited Speaker • Huawei STW (Science and Technology Workshop) Shenzhen, China
- 2016 Panel Member, US GAO / National Academy of Science / Engineering, Expert IoT Panel
- 2016 IoT Berlin • [www.vdi-wissensforum.de/en/cesis-global-internet-of-things-conference/](http://www.vdi-wissensforum.de/en/cesis-global-internet-of-things-conference/)
- 2017 Invited Speaker • CIO/CTO Council • Koch Industries “Translational Engineering”
- 2017 Panel Member • Toronto Smart Cities • <https://www.ispim-innovation-forum.com/>
- 2017 Advisor • Advanced Silicon Group • <http://www.advancedsilicongroup.com/>

**IDEAS & INNOVATION - INVITED TALKS & EVENTS****(continued)**

- 2017 Keynote • Conference on Genetic and Evolutionary Computing, Kaoshiung, Taiwan  
 2017 Speaker • Kaoshiung University of Applied Sciences, Kaoshiung, Taiwan  
 2017 Speaker • Tajen University, Yanpu, Taiwan  
 2017 Speaker • National Dong Hwa University, Hualien, Taiwan  
 2017 Speaker • Mingshin University of Science and Technology, Xinfeng Hsinchu, Taiwan  
 2017 Speaker • National Taipei University of Technology, Taipei, Taiwan  
 2017 Speaker • Daikin - Hotai Development, Taipei, Taiwan  
 2017 Speaker • Kaison Green Electric Technology Company, Taichung, Taiwan  
 2018 Co-organizer • Nanotech in Food Production  
 2020 NSF I-CORPS • IoT Project, School of Engineering Technology, Purdue University  
 2020 Advisor, Engineering Training and Education Grants, Purdue University  
 2020 EXTERNAL MENTOR (Services) • Navtat Solutions (Bangalore, India)  
 2020-2023 Advisor, SARS-CoV-2 Sensors for Detection, NIH RADx RAD, Clemson University  
 2022 Talk • PEAS: Connecting decision science with analytical electrochemistry, PITTCON  
 2022 Talk • Frontiers in Chemistry Forum (Berlin, DE)  
 2022 Talk • ACE2 Sensor for SARS-CoV-2 (SPIE)  
 2022 Talk • Healthcare, Medical Ethics, Dying and Death • Würzburg, DE [www.ukw.de](http://www.ukw.de)  
 2022 Invited Lectures • National Cheng Kung University (NCKU), Tainan, Taiwan

**GRANTS & CONTRACTS****REVIEW PANELS • STEERING COMMITTEE • ADVISORY BOARDS**

- 1996-1997 Award → US Department of Commerce, National Telecommunications Information Infrastructure Authority (NTIIA)  
 Project → Interactive University Program (online university – high school partnership for students and teachers)  
 Collaborators → University of California, Berkeley and San Francisco Public Schools  
 1998-1999 Contract → State of California, Department of Education  
 Program → State Standards for Mathematics & Science  
 Associated Scientists (Co-Founders : Shoumen Datta, Glenn Seaborg, Stan Metzenberg)  
 2006-2009 Award – European Union (EU) Commission on Intelligent Systems • FP6  
 Project – SMART RFID Integration • [http://cordis.europa.eu/projects/rcn/80467\\_en.html](http://cordis.europa.eu/projects/rcn/80467_en.html)

**ADDITIONAL INFORMATION FOR CV**

**Shoumen Palit Austin Datta**

## Global Business Experience and Management of Technology Innovation

Business innovation and catalyzing profitable growth through strategy and management of technology • Demonstrated expertise in steering organizational change through strategy, management and leadership of multi-national teams across diverse cultures • Experience in public sector and significant bio-medical expertise.

Sales and Revenue Growth  Channel Management  Product Development  Commercialization  Innovation Index  
 Strategic Planning  Change Management  Market Assessment  Bio-medical Research  Partnership Development

**1999-2002**

### **SAP Labs (Palo Alto, CA) and SAP AG (Waldorf, Germany)**

\$10 billion global corporation offering ERP products

#### **High Tech Business Unit - SAP Labs Palo Alto, California**

Revenue Growth estimated at \$1 million +

- [a] Development consultant for high tech IBU
- [b] Pre-sales support for semiconductor industry – highest growth vertical included CRM, DRM, PLM, MES
- [c] Global management of liaison with SAP Japan

#### **High Tech Accounts – SAP Japan (Tokyo, Japan)**

Revenue Growth estimated at \$10 million +

- [a] Major customers - SONY, HITACHI and MITSUBISHI
- [b] Specifically served as the SAP SCM (APO suite) pre-sales support team for SONY Semiconductors, SONY Electronics, SONY Global Logistics, SONY Computer Entertainment
- [c] Defined SAP-SONY APO needs for sales strategy
- [d] Major sales growth for SAP Japan
- [e] Consulting Revenue for SAP Labs Palo Alto

#### **SCM Business Unit – SAP AG (Waldorf, Germany)**

Revenue Growth estimated a \$100 million +

- [a] Introduced RFID innovation for SAP real-time SCM
- [b] RFID SCM partnership with P&G and SONY (Japan)
- [c] Co-created business plan for SAP SCM RFID integration
- [d] Helped SAP adoption of RFID in multiple suites
- [e] Represented SAP at RFID Technology Board at MIT
- [f] Inspired SAP to publish at least 2 books on RFID:

*Adapt or Die* and *RFID and Beyond* (Claus Heinrich)

## 2000-2003

### MIT Auto ID Center, Member of Technology Board

- ☑ RFID Vision - Real-Time Intelligent Data, IoT
- ☑ Strategic and Business Applications of RFID
- ☑ RFID as a Real-Time Data Tool for Supply Chain
- ☑ RFID next generation applications and evolution
- ☑ RFID Consulting with Wal-Mart, US DoD, P&G, Kimberly-Clark, Tesco, UniLever, Gillette, Deloitte, Accenture, PWC, Hitachi, Philips, GlaxoSmithKline, Government of Taiwan

## 2001-2010

### MIT Forum for Supply Chain Innovation, Co-Founder

MIT School of Engineering & MIT Sloan School of Management

#### 1 – Thought leadership for supply chain innovation

#### 2 – Company specific solutions and consulting

- SAP → Revenue Growth estimated at \$10 million +
- Intel → Revenue Growth estimated at \$10 million +
- P&G → Revenue Growth estimated at \$10 million +
- GE → Revenue Growth estimated at \$10 million +
- CapGemini
- Deloitte
- Mitsubishi (Japan)
- Sony (Japan)
- TEPCO (Japan)
- Chi-Mei (Taiwan)
- Volvo (Sweden)
- TCS (India)
- Tata Iron & Steel (India)
- Siam Cement (Bangkok)
- TEKES (Finland)
- Michelin (France)
- Hitachi (USA)
- ITRI & III (Taiwan)

#### 3 – Country specific advising for governments and global organizations

- US Department of Defense (US Army Materiel Command, Fort Belvoir, Virginia)
- US Department of Homeland Security (US Customs, Transportation Security Agency)
- World Customs Organization (Brussels)
- United Nations - UNDP (New York, Shanghai)
- Government of Finland (Council on Science and Technology - TEKES)
- Government of Taiwan (Ministry of Economic Affairs, Industrial Development Board)
- Government of Thailand (Ministry of Science and Technology)
- Government of Ireland (Innovation Ireland, Office of the Taoiseach – Prime Minister)
- Government of India (Customs - Ministry of Finance, Bureau of Energy Efficiency)
- GS1 Hong Kong (China)
- President's Science and Technology Advisory Group (Ministry of Home Affairs, Taiwan)

1999-2002

## Global Operations Management

- SAP Labs, Palo Alto, California
  - High Tech Business Unit
  - Software Development Consultant
  - CRM and SCM pre-sales support
  - SCM consulting with SAP Japan
  - SAP internship coordinator
- SAP AG, Waldorf, Germany
  - RFID innovation and university research liaison
  - SCM real-time data leadership with P&G
  - SAP lead at MIT Auto ID Center
  - SCM partnership with Intel and Metro AG
- SAP Japan, Tokyo
  - SCM sales consulting (SONY, MITSUBISHI)
  - SCM pre-sales support and thought leadership
  - SCM presentations
  - SCM public communications

2001-2003

- SCM RFID - MIT Auto ID Center
  - Technology Board
  - RFID Standardization
  - SCM real-time RFID, IoT
  - SAP SCM thought leadership
  - SAP SCM RFID in intelligent planning
  - RFID in public interest communications
  - Intelligent software agents in inventory planning
  - Connecting atoms to bits • networked physical world

Co-Founder, MIT Forum for Supply Chain Innovation, School of Engineering, MIT (Cambridge, Massachusetts)

- Executive Director (2002-2006) and Research Director (2007-2010)
- SCM global thought leadership and major advances in forecasting
- Worldwide consulting – SCM, RFID, Logistics and Intelligent DSS
- Project partnerships for SCM advances, tools and technology
- SCM advising for governments and organizations
  - US Department of Defense (US Army Materiel Command, Fort Belvoir, VA)
  - US Department of Homeland Security
  - World Customs Organization (Brussels)
  - United Nations
  - UNDP (Shanghai, China)
  - Government of Finland (TEKES, Ministry of Science and Technology)
  - Government of Taiwan (Ministry of Economic Affairs, STAG)
  - Government of Thailand (Department of Science and Technology)
  - Government of Ireland (Office of the Prime Minister)
  - Government of India (Ministry of Finance – Customs; Energy)
  - GS1 Hong Kong (China)
  - ITRI & III (Taipei, Taiwan)
- SCM and intelligent data analytics in RFID-SCM decision systems consulting
  - SAP
  - Intel
  - P&G
  - IBM
  - GE
  - CapGemini
  - Deloitte
  - Mitsubishi (Tokyo, Japan)
  - Sony (Tokyo, Japan)
  - TEPCO (Tokyo, Japan)
  - Chi-Mei (Tainan, Taiwan)
  - Volvo (Goteborg, Sweden)
  - Tata Consultancy Services (Mumbai, India)
  - Tata Iron & Steel Co (Jamshedpur, India)
  - Siam Cement Group (Bangkok, Thailand)
- SCM Innovation, Strategy & Management – Executive Education & SCM MBA Courses
  - MIT Sloan School of Management (Cambridge, Massachusetts)
  - Haas School of Business, University of California (Berkeley, California)
  - Chalmers University of Technology (Goteborg, Sweden)
  - Ecole Supérieure des Sciences Economiques et Commerciales (Paris, France)
  - Institut Supérieur de Logistique Industrielle, BEM (Bordeaux, France) KEDGE BS
  - National Taiwan University (Taipei, Taiwan)
  - National Cheng Kung University (Tainan, Taiwan)
  - Indian Institute of Management (Ahmedabad, India)
  - Trinity College (Dublin, Ireland)
  - University College Dublin (Dublin, Ireland)
  - University of Cambridge (Cambridge, UK)
  - Helsinki University of Technology (Helsinki, Finland)
  - Lappeenranta University of Technology (Lappeenranta, Finland)
  - University of Iceland (Reykjavik, Iceland)
  - Indian Institute of Management (Ahmedabad, India)

**Industry Advisory Roles – Disclosure of topics, statement of work and agreements are prohibited (in compliance with NDA)**

IBM	Digital Value Networks
GE	Industrial IoT ▪ RFID, UWB, Sensors ▪ Predictive Analytics ▪ Digital Supply Chain Management ▪ IPv6
P&G	Transparency of SCM ▪ Design of Data Flow ▪ RFID in Supply Demand Network ▪ Agents in SCM
Koch	Digital Transformation ▪ IoT and Industrial IoT Data, AI, Analytics ▪ Sensors, robotics, nanotech
PepsiCo	Supply Chain Management (SCM)
Xerox	Intelligent PLM (product life cycle management)
Intel	RFID and digital SCM in retail stores of the future ▪ Autonomous Transportation ▪ Industrial IoT
Volvo	Intelligent Decision Systems
Tata (Tata Steel)	Supply Chain Planning and Optimization
Siam Cement	Supply Chain Planning and Optimization ▪ Energy Efficiency ▪ Sensor Networks ▪ Asset Management
Michelin	Inventory Optimization ▪ Operations Management ▪ RFID in Asset Management
Hitachi	RFID in track and trace ▪ IoT and the industrial internet ▪ Digital Transformation ▪ Transportation
Airbus	RFID in track and trace ▪ Spare parts inventory management
General Motors	RFID in track and trace ▪ Spare parts inventory management
AAR	RFID in track and trace ▪ SCM inventory management ▪ Digital Transformation ▪ Data, Analytics, AI
Kone	Intelligent PLM (product life cycle management) and coupling with digital supply chain management
Nokia	Intelligent PLM (product life cycle management) and coupling with digital supply chain management
Chi-Mei	Digital interfaces in healthcare infrastructure
LogicaCMG	SCM and the evolution of value networks
CapGemini	RFID and digital supply chain ▪ IoT
Sony	RFID in semiconductor industry transparency ▪ Global Logistics ▪ SCM software ▪ Decision Systems
Mitsubishi	RFID in heavy industry
TEPCO	Internet infrastructure ▪ IPv6 ▪ Semantic Interoperability between systems ▪ Intelligent Systems
Huawei	IoT and Industrial IoT ▪ Digital Transformation ▪ Data, Analytics, AI and Intelligent Decision Systems
TCS	Data and Artificial Intelligence ▪ Digital Transformation ▪ Robotics and Automation
Fujitsu	IoT and Industrial Internet ▪ Data, Analytics and AI
TechMahindra	IoT and Industrial Internet ▪ Data, Analytics, AI ▪ Medical Devices ▪ Interoperability ▪ Cybersecurity
Accenture	IoT and Industrial Internet ▪ Data, Analytics and AI ▪ Digital Twins and Digital Transformation of SCM
Deloitte	Healthcare Information Technology (HIT)
Braun	Medical Devices ▪ Interoperability ▪ Cybersecurity
Infosys	IoT and Industrial Internet ▪ Data, Analytics, AI ▪ Autonomous Transportation
<b>Governments</b>	
AOK (DE)	Digital Transformation in Healthcare ▪ Cybersecurity ▪ Data, Analytics, AI
WCO (EU)	Security and Cybersecurity in multi-modal transportation ▪ Standards for security harmonization
DHS (US)	Risk in security ▪ ACE Program
ITRI (TW)	IoT and Industrial Internet ▪ SCM ▪ Sensors and energy efficiency
III (TW)	RFID, IoT, IIoT ▪ Digital SCM ▪ Data, Analytics, AI ▪ Cybersecurity ▪ FinTech ▪ Blockchain ▪ Transport
MOEA (TW)	IoT and Industrial Internet ▪ Digital SCM ▪ Data, Analytics, AI ▪ Education Technology
STAG (TW)	RFID and Digital SCM
TEKES (FI)	Ministry of Science and Technology (Innovation, SCM, PLM, Data, Analytics, IoT, Cybersecurity)
Ireland	Prime Minister’s Task Force for Innovation (Energy)
India	Customs Bureau, Ministry of Finance
DoD (US)	US Army Materiel Command
GAO, NAS (US)	Cybersecurity ▪ IoT and Industrial IoT
DoC (US)	Workforce and Education for Economic Growth (National Task Force for Clinton Administration)
State of California	Special Assistant to Mayor of San Francisco for Public K-12 Education (SFUSD) <a href="http://bit.ly/SD-K12">http://bit.ly/SD-K12</a>

1980-1994

Molecular Biology • Biochemistry • Protein Chemistry • Genetics • Biotechnology • Microbiology • Virology • Cell Biology • Tissue Culture

☑ UNIVERSITY OF CALIFORNIA, SAN FRANCISCO • UCSF SCHOOL OF MEDICINE  
INSTRUCTOR MD PROGRAM • MEDICAL GENETICS

☑ UNIVERSITY OF CALIFORNIA, SAN FRANCISCO • UCSF SCHOOL OF MEDICINE  
RESEARCH SCIENTIST • MOLECULAR PARASITOLOGY • INFECTIOUS DISEASES

Unpublished work represents an attempt to study RNA Polymerase specificity of transcription in the parasite *Trypanosoma brucei* which is known to cause Trypanosomiasis (also referred to as sleeping sickness). *T. brucei* cell-free extracts were prepared and transcriptional analyses were performed with RNA Pol I, RNA Pol II and RNA Pol III promoters from parasite, human and DNA virus. Functional *in vitro* transcription systems generated transcripts which suggested that RNA polymerase from *T. brucei* was likely to be less specific in its choice of promoters for initiation of transcription. Use of known transcription inhibitors had a range of concentration dependent effects which suggests that the RNA polymerase in *T. brucei* may use related but different mechanism(s) of action to initiate transcription from promoters.

☑ MASSACHUSETTS INSTITUTE OF TECHNOLOGY • MIT HUMAN GENOME PROJECT • WHITEHEAD INSTITUTE  
RESEARCH SCIENTIST • MOLECULAR BIOLOGY OF TRANSCRIPTION • YEAST ARTIFICIAL CHROMOSOMES (YAC)

Unpublished work represents a successful attempt to reconstitute bonafide RNA Polymerase II initiation of transcription *in vitro* using protein complexes of purified transcription factors fractionated from cell free extracts of *Saccharomyces cerevisiae* (yeast). Reconstitution mapped the order of association and sequence of transcription factor complex formation for initiation and elongation of transcription for RNA Polymerase II promoter. Unpublished work from the Human Genome Project (1994) was focused on optimization on packaging of increasingly large pieces of human genomic DNA (>10 MB) in yeast artificial chromosomes and successful transformation to generate viable yeast cells with these YACs.

☑ HARVARD MEDICAL SCHOOL • HARVARD UNIVERSITY  
INSTRUCTOR IN MOLECULAR MEDICINE, PHYSIOLOGY & METABOLISM

☑ HARVARD MEDICAL SCHOOL • HARVARD UNIVERSITY • MASSACHUSETTS GENERAL HOSPITAL  
RESEARCH FELLOW IN MEDICINE • MOLECULAR ENDOCRINOLOGY • THYROID AND NEURO-ENDOCRINE LAB

Published work which unraveled and identified the molecular mechanisms of the DNA-protein interactions responsible for the initiation of transcription which in turn regulated the steroid or thyroid hormone dependent or independent gene expression profile of the thyroid receptor genes in normal human subjects and in patients with thyroid hormone resistance syndrome or thyroid carcinoma (cancer). Taken together, this work helped to elucidate the clinical anomalies and enabled clinical improvements in the treatment of thyroid malfunctions in humans.

☑ RUTGERS • UMDNJ • NEW JERSEY MEDICAL SCHOOL • GRADUATE SCHOOL OF BIOMEDICAL SCIENCES  
PhD • MOLECULAR BIOLOGY • BIOCHEMISTRY • MICROBIOLOGY • VIROLOGY

Published and unpublished research pursued for PhD thesis focused on molecular differentiation of the mechanism of actions by which cancer inducing proteins from DNA tumor viruses influence the rate of cellular gene expression from RNA Pol I, RNA Pol II and RNA Pol III promoters and enhancers in cell free extracts (*in vitro* transcriptional analysis in extracts prepared from HeLa cells). The Adenovirus oncogene E1A was bio-engineered to create a series of overlapping mutants in order to map the active sites of protein-protein or protein-DNA interactions *in vivo* (in the yeast two-hybrid system) and *in vitro* initiation of transcription. Synthetic peptides were generated to represent the minimum segment of the E1A protein (identified by mutational analysis) which could successfully alter (stimulate or inhibit) gene expression from RNA Polymerase promoters in *in vitro* transcriptional analysis (in collaboration with Department of Molecular Biology, Princeton University, NJ, USA).

☑ UNIVERSITY OF PITTSBURGH  
CELLULAR & MOLECULAR BIOLOGY • BIOCHEMISTRY • GENETICS • MICROBIOLOGY • VIROLOGY

Unpublished work [1] creating monoclonal antibodies in cell culture. [2] Genetic and DNA sequencing analysis of mutations induced in the cloned large T antigen (oncogene) of the SV40 DNA tumor virus using cell culture assay to detect tumor inducing effect (*in vitro* cell culture). Truncated versions of large T antigen were tested to map and differentiate steps in the progression of the induction of tumor in cell culture. [3] Translational control of protein synthesis in bacteria which identified various types of small RNAs in the translation complex with proteins which could have interfered with the translation of the mRNA in the bacteria. Characterization of the small interfering RNAs were incomplete.

## 1990-1994

Public Education and Technology • K-12 Outreach • Harvard Medical School • Massachusetts Institute of Technology • Boston Latin School

Activities (below) were undertaken while I was a Research Fellow in Medicine at Massachusetts General Hospital, Harvard Medical School and Research Associate at Whitehead Institute, Massachusetts Institute of Technology.

- Research host for middle school student internship from public schools in Dorchester and Roxbury
- Created partnership programs between middle school and Harvard Medical School K-12 outreach
- Research guide for high school students from Boston Public Schools
- Helped in the formation of Teacher's Program at the Whitehead Institute, MIT
- Secured multi-year funding for Boston Latin School from Edwin Rowland Foundation
- Focused my personal efforts on Boston Latin School to improvement science laboratories
- Created a program to inspire students by organizing talks by Nobel Prize winners (13 participated)

## 1996-1999

Public Service • K-12 Education • Special Assistant to SFUSD • California Math &amp; Science Standards • National Taskforce Workforce (Federal)

Helped plan Thurgood Marshall Academic High School with mandatory graduation requirements in language, science and mathematics. An instructional success at this school was the cover story of US News & World Report [2 Dec 1996] and this pre-engineering program segued to evolve as the first hands-on Cisco Networking Academy. [www.theatlantic.com/issues/97jul/computer.htm](http://www.theatlantic.com/issues/97jul/computer.htm) and [www.cnn.com/TECH/computing/9902/25/schoolwork.idg/](http://www.cnn.com/TECH/computing/9902/25/schoolwork.idg/)

Instituted mentorship and internship program for students as well as teachers with help from Carol Christ, Vice-Chancellor of UC Berkeley and Condoleeza Rice, Provost of Stanford University. Recruited highly qualified teachers in language arts, mathematics, science and technology to uphold academic excellence. Secured funding from Silicon Graphics to supplement teacher salaries in cooperation with and 'blessed' by the local teacher's union.

Professional development partnership to enable teachers to take courses for credit at UC Berkeley at no cost to teacher or SFUSD. Josephine Miles Fellowship funded and sponsored by Carol Christ, Vice-Chancellor, UC Berkeley. Collaboration catalyzed by Charles Townes, Professor of Physics, UC Berkeley.

[http://articles.sfgate.com/1996-01-02/opinion/17765856\\_1\\_berkeley-pledge-uc-berkeley-regents-decision](http://articles.sfgate.com/1996-01-02/opinion/17765856_1_berkeley-pledge-uc-berkeley-regents-decision)

Partnership with Pacific Bell to upgrade network infrastructure (\$2.5 million) to enable Clinton-Gore Net Day 1996 and introduce internet in the classroom. Detwiler Foundation donated 1000 computers for students to take home as a part of a collaboration for the school district computer literacy program for students and parents. NASA donated several hundred computers and other scientific equipment for school laboratories (NASA Moffett Field) including an electron microscope (at Burton High School, San Francisco Unified School District, San Francisco, CA).

☑ Established joint venture with UC Berkeley Interactive University Program to benefit students and teachers from UC Berkeley resources that could be accessed remotely and UC students to provide real-time online tutoring to school students (point-to-point systems using remote webcam). Received NTIA-TIIAP grant award (\$650,000) from US Department of Commerce for public school technology innovation in collaboration with the Interactive University Program at UC Berkeley (online education technology).

☑ Worked with UC Berkeley Chancellor Chang Lin Tien and Vice Chancellor Carol Christ to shape Berkeley Pledge activities to help Bay Area students (SFUSD) gain broader access to advanced academic opportunities, inspiration and vision. Catalyzed by Glenn Seaborg, Emeritus Director of Lawrence Berkeley Laboratory at UC Berkeley.

☑ Nominated by US Department of Commerce and Information Technology Association of America to Chair the National Task Force on Mathematics and Science Education and its Impact on Workforce Development. 1997 National Information Technology Convocation sponsored by the US Department of Commerce and White House Council of Economic Advisors. Strategic planning and economic impact of IT workforce. Convened at UC Berkeley.

☑ Formed **ASSOCIATED SCIENTISTS** (co-founded with Glenn Seaborg and Stan Metzenberg) which was catalytic in changing the K-12 mathematics and science standards for State of California. These standards received a perfect score from the American Federation of Teachers [AFT] in their 1998 report **Making Standards Matter**. Review ASSOCIATED SCIENTISTS in Seaborg, Glenn T (2001) *Adventures in The Atomic Age*, pages 293-294 (ISBN 0-374-29991-9) and Seaborg, Glenn (Archives) Library of Congress **Box 276** <http://hdl.loc.gov/loc.mss/eadmss.ms006039>

EDUCATION/TRAINING

INSTITUTION AND LOCATION	DEGREE	Completion MM/YYYY	FIELD OF STUDY
Presidency College, University of Calcutta, India	B.Sc.	08/1980	Biochemistry and Physiology (Physics and Chemistry)
Rutgers University School of Medicine, New Jersey, USA	Ph.D.	07/1989	Molecular Biology, Microbiology & Virology
Harvard Medical School, Massachusetts General Hospital, Boston, Massachusetts, USA	Fellow in Medicine	06/1991	Molecular Medicine: Thyroid and Neuro-Endocrinology, Molecular Oncology
Massachusetts Institute of Technology, Whitehead Institute, Cambridge, Massachusetts, USA	Postdoctoral Associate	11/1994	Molecular Biology and Human Genome Project
University of California San Francisco (UCSF), CA, USA	Research Associate	12/1995	Molecular Parasitology and Infectious Diseases

## A. Personal Statement

My background includes basic science, biomedical sciences, molecular biology and medicine, in addition to bit of engineering and commerce. Scientific training includes [I] human genome project (DNA sequencing, creating yeast artificial chromosomes), [II] transcriptional regulation and genetics [{1} regulation of gene expression by DNA tumor virus oncogenes, {2} yeast genetics for transcription factor analysis in vivo, {3} in vitro reconstitution of transcription initiation complex, {4} protein chemistry of eukaryotic transcription factors, {5} recombinant protein expression in and purification from baculovirus, {6} regulation of thyroid hormone receptor gene expression in patients with thyroid carcinoma, {7} glucocorticoid and steroid receptor gene expression in pituitary carcinoma, {8} molecular parasitology of infectious diseases using parasite Trypanosoma brucei]. I have also used my [A] basic science fundamentals to build bridges into engineering domains (radio frequency, data and decisions, networks, systems, operations and industrial management) and [B] communication skills in {i} administration of public science education {ii} workforce development issues in state and federal government and {iii} advising corporations and friendly foreign governments (Finland, Ireland, Taiwan, to name a few).

My penchant for science and research, as a lifelong purpose, is unchanged but strengthened by my collective experience in science, medicine, engineering, commerce and government or wherever the convergence of knowledge, communication and administration was/is necessary as a part of the mission. My lack of overt greed for personal wealth creation, my ability to perform as a relatively unbiased science and engineering observer and my ability to view issues as a “global” citizen with a moderate sense of the future, are reasons for my involvement with consortiums involving global academia, industry and governments, on a range of topics such as standardization of radio frequency identification, internet of things and industrial internet, data and semantics, operations and supply change management. The confluence of ideas in the proposed research seeks trans-disciplinary convergence to create end-to-end systems that I have discussed, in principle, in my publications, and exemplified in practice as a member of the hospital medical device community where the problems of data and failure of data interoperability in decision systems are contributing to fatal mistakes (which makes the latter the [third leading cause of death in the US](#)). During 2008-2009 my life was gravely disrupted by colon cancer. After a few years of convalescence, I resumed my activities with encouragement from friends ([Sanjay Sarma](#), [Joe Salvo](#)) and re-started advising in science, technology and engineering as well as teaching (operations management, supply chain, decision systems, innovation, entrepreneurship). I also re-engaged in research publications with erudite collaborators ([Eric Scott McLamore](#)) to further my professional horizon and enabling the tools of science to better serve society. <https://bit.ly/Google-Scholar-SD>

## B. Positions

**1999-present** (with breaks)

Research Affiliate, Auto ID Labs, Department of Mechanical Engineering, MIT ▪ <https://autoid.mit.edu/shoumen-datta>

**2000-2010**

Research Scientist, Engineering Systems Division, Department of Civil and Environmental Engineering • Co-Founder and Executive Research Director, MIT Forum for Supply Chain Innovation, School of Engineering, Massachusetts Institute of Technology

**2014-present**

Senior Scientist, MDPnP Lab ▪ <http://mdpnp.mgh.harvard.edu> ▪ Massachusetts General Hospital, Harvard Medical School

**2015-present**

NSF Center on Robots and Sensors for Human Well Being (RoSeHuB), School of Engineering Technology, Purdue Polytechnic, Purdue University ▪ <https://www.purdue.edu/rosehub/RoSeHUB.contact.html>

**2018-present**

Research Coordinator, Center of Excellence, Dept Ag & Bio Eng, University of Florida ▪

<https://emclamor.wixsite.com/mclamorelab>

**1999-present** (with breaks)

Research Affiliate, Auto ID Labs, Department of Mechanical Engineering, MIT ▪ <https://autoid.mit.edu/shoumen-datta>

**1999 - 2002**

Software Solutions, Global Strategic Innovation, Initiatives, SCM Management ▪ SAP Labs (Palo Alto), SAP German, SAP Japan

**1995-1997** Special Assistant [Title XIV], Superintendent of Schools, City and County of San Francisco, San Francisco, California

**1994-1995** Research Scientist, University of California at Berkeley and UCSF School of Medicine (San Francisco, California)

UCSF-UC Berkeley Program in Molecular Parasitology & Infectious Diseases • Instructor in Human Genetics UCSF School of Medicine

**1991-1994** Research Associate, Whitehead Institute, Massachusetts Institute of Technology (MIT), Cambridge, Massachusetts

**1990-1993** Instructor in Medicine (Biochemistry and Metabolism), Harvard Medical School, Boston, Massachusetts

**1989-1991** Research Fellow, Harvard University • Research Fellow in Medicine, Massachusetts General Hospital, Boston, MA

## Professional Experiences

- 1999-2004 MIT Auto ID Center, Founding Member, Technology Board • IoT (Internet of Things) & RFID (radio frequency id)
- 2001-2010 MIT Forum for Supply Chain Innovation (Co-Founder, Executive Director, Research Director) • Digital Supply Chain
- 2002-2007 MIT Sloan School of Management, Executive Ed in Strategy and Management, Supply Chain, Sloan Fellows, LMP
- 2003-2006 MIT Data Center (Co-Founder) Semantics & Data [http://web.mit.edu/edmund\\_w/www/DATACENTERpeople.htm](http://web.mit.edu/edmund_w/www/DATACENTERpeople.htm)
- 2004-2007 Member of IIS, Trinity College, Dublin
- 2006-2009 Co-Founder, Center for Integration of Data and Systems (CIDS), Institute of Technology, Tralee, Ireland
- 2013-2016 IoT in industry sponsored organization (Industrial Internet Consortium, Founding Senior Vice President)

## Public Service

- 2005-2007 Member of the Science and Technology Advisory Group (STAG), Office of the President of Taiwan, Government of Taiwan
- 2005-2006 Advisor to Secretary General, World Customs Organization, Brussels (<http://www.wcoomd.org/>)
- 1998-1999 Office of Public Understanding of Science & Advisory Council (Eagle Alliance) Dept of Nuclear Eng, Texas A&M Uni
- 1997-1998 Visiting Fellow, Cisco Systems, San Jose, CA (creating and promoting the global roll out of Cisco Networking Academy)
- 1997-1998 Chairman, National Information Technology Task Force. US Departments of Commerce; Labor; Education; White House Council of Economic Advisors and Information Technology Association of America. (Host: University of California, Berkeley, CA)
- 1996-1999 President/Co-Founder, Associated Scientists (Co-Founders Glenn Seaborg, UC Berkeley & Stan Metzenberg, CSUN)

## C. Contribution to Science (Basic Science Research)

1. My journey in molecular biology began in 1980 and started with sequencing SV40 mutants (by hand, using Allan Maxam and [Walter Gilbert's](#) handwritten notes on how to optimize piperidine cleavage), using Hind II/III restriction endonucleases which were "made by hand" by [Ham Smith](#) and mailed to us (University of Pittsburgh, 1981) by a post-doc in [Dan Nathans](#) lab (JHU). The large T-antigen occupied most of the 5243 base pairs of this DNA tumor virus but it had too many secrets (we did not know in 1981 and [Marilyn Kozak](#) agreed) that resisted my attempts (1981-1983) to dissect T antigen in order to map structure with function, *in vivo*.
  2. In 1980, a paper was published ([Phil Sharp's](#) lab; co-author [Andy Fire](#)) demonstrating cell-free extracts for transcription *in vitro* ([www.pnas.org/content/pnas/77/7/3855.full.pdf](http://www.pnas.org/content/pnas/77/7/3855.full.pdf)). Next, Andy Fire showed (1981) that Adenovirus promoters could initiate transcription by RNA polymerase II *in vitro* ([www.ncbi.nlm.nih.gov/pmc/articles/PMC256682/pdf/jvirol00165-0089.pdf](http://www.ncbi.nlm.nih.gov/pmc/articles/PMC256682/pdf/jvirol00165-0089.pdf)). My work, circa 1985 (Rutgers University in collaboration with [S. Jane Flint](#) and [Tom Shenk](#) at Princeton University), focused on the mechanism of action of onco-proteins by which they regulate expression of oncogenes (viral and cellular). By now it was clear that the large Adenovirus E1A protein was the principal player (onco-protein). I proceeded to isolate and purify recombinant 289R E1A and then using Andy's *in vitro* cell extract system, I was able to show that the purified Adenovirus oncoprotein 289R E1A could activate promoters and repress enhancers to regulate gene expression *in vitro*. I presented the combined results ([Nikki Harter's lab](#)) in a "talk" (yes, talk, not a poster) at the Tumor Virus Meeting in 1987 organized by ICRF at Churchill College, University of Cambridge. After a vigorous Q&A following the talk, I walked out of the hall and there was Mike Fried, who stopped me and used superlatives to convey his appreciation of the science and my presentation (Mike Fried in chapter 2 <http://blueskiesbenchspace.org/index.php?pag=2>). It was the first time (?) that the *in vitro* system was capable of showing repression of transcription by an onco-protein (which was the contribution I made to extend the previous work of the lab <https://science.sciencemag.org/content/237/4818/1044>). With S. Jane Flint at Princeton University, I was able to show that the activation and repression by 289R E1A was located to a small 49 amino acid residue (49R synthetic peptide). Is it displacing a cellular factor (<https://www.jbc.org/content/263/8/3984.full.pdf>) which may bind to the enhancer region? The *in vitro* dissection of mechanism of action of proteins and deconstruction of the RNA Polymerase II initiation complex (and transcriptional reconstitution) occupied the next few years of my life at Harvard, MIT and UCSF School of Medicine.
32. [Datta S](#), Wang DM, McGrath M, Westerdahl C, Harter ML. Bacterially produced E1A 289R activates Pol III transcription through TFIIC. Imperial Cancer Research Fund (ICRF) Tumor Virus Meeting, 1989. Churchill College, University of Cambridge, UK.
33. [Datta S](#). (1989) Transcriptional Activities of the 289 amino acid Adenovirus 2 E1A Protein in vitro (PhD thesis) Rutgers University School of Medicine, UMDNJ Graduate School of Biomedical Sciences, Rutgers University, New Jersey, USA
34. [Datta S](#), Chatterjee P, Losada MC, Flint SJ, Harter ML. An E. coli produced E1A 289R protein and a synthetic E1A 49R peptide variably regulates Pol II and Pol III transcription in vitro. Tumor Virus Meeting, 1988. Cold Spring Harbor Lab, NY.
35. [Datta S](#), Spangler R, Bruner M, Harter ML. Activation of viral and non-viral promoters by the Adenovirus 289R E1A protein in cell-free extracts. Imperial Cancer Research Fund Tumor Virus Meeting, 1987. Churchill College, University of Cambridge, UK.

3. In hypothyroidism and post-surgical treatment of thyroid carcinoma, there appeared to be a disconnect in the responsiveness to tri-iodo-thyronine (T3 therapy) in some patients. Part of the answer to this thyroid hormone resistance syndrome was elucidated by my work during 1989-1991 (with [J. Larry Jameson](#) at MGH, HMS, in the same endocrine unit as [Anne Klibanski](#)). We concluded single nucleotide polymorphisms (SNPs) may alter the DNA sequence of the thyroid response element (TRE) which also overlapped the TFIID binding site for initiation of transcription of the thyroid hormone receptor protein (THR). I was able to demonstrate this effect in *in vitro* transcription in HeLa cell extracts by adding thyroid hormone receptor protein (THR) produced in insect cells infected with recombinant baculovirus vector containing human THR. Addition of thyroid hormone (T3) regulated the effect of the binding of THR to the TRE. We also showed that this mechanism was not a special case for THR but applicable to glucocorticoid and steroid receptors in humans. The “novelty” of this *in vitro* finding was initially snubbed by *the-then* experts ([Bob Roeder](#), [Keith Yamamoto](#)) but later both experts and others were able to replicate and extend our first observations. The treatment regimen for some patients at MGH was changed as a result of this observation. T3 therapy alone could no longer alleviate their symptoms because no matter how much T3 is in the system and irrespective of the binding of T3 with its receptor (THR), the T3-THR complex may not bind to the TRE and fail to control the anticipated gene expression. In another scenario, the lack of THR will make addition of T3 ineffective. Relevant publications mentioned in this bio-sketch (with respect to this discussion) are number 23 and numbers 25-31.
4. In 1991, I moved from MGH,HMS to [Richard Young’s lab](#) the Whitehead Institute at MIT, where (in collaboration with [Phil Sharp’s group](#)) I began purifying all the core RNA Polymerase II transcription factors (TFIIA, TFIIB, TFIIC, TFIID, TFIIE, TFIIIF) from yeast using protein purification and re-purification. I was able to show transcription initiation by RNA Polymerase II in vitro by sequential addition of TF’s. This work was neither recognized nor published because I had a family disaster (accidental death) and by the time I returned to the lab (several months) the lead we had was lost and my work. It was advantage [Roger Kornberg](#).
5. Still at MIT, I joined [Eric Lander](#) (1993) who was setting up the first human genome sequencing project (inaugurated 7/27/1993). I contributed by improving human DNA packaging in YACs (yeast artificial chromosomes). The rest is history and I am a part of it.
6. December 1994, I moved to UCSF School of Medicine. I was able to create an *in vitro* system for studying gene expression in the parasite *Trypanosoma brucei* and showed that transcription of T. brucei promoters were catalyzed by RNA Polymerase III (not RNA Polymerase II as in humans and other eukaryotes). This result was not published because it was preliminary.
7. Inspired by [Bruce Alberts](#), in January 1996, I found myself as an Assistant to the Mayor for the City and County of San Francisco and in charge of bringing [science education](#) to public schools ([www.SFUSD.edu](http://www.SFUSD.edu)). That contribution to science is in a different vein. It was due to [Glenn Seaborg](#). I had help from [Charles Townes](#) and [Richard Zare](#), amongst many others, but a large part of it could not have happened (1996-98) without [Carol Christ](#).

#### List of Published Work in MyBibliography:

# ONE-page NSF (National Science Foundation) Bio-sketch for Shoumen Datta

## Professional Preparation

Rutgers University, NJ	School of Medicine	Ph.D., 1990
University of Pittsburgh, PA	Molecular Biology	M.S., 1985
Presidency College, India	Biochemistry	B.Sc., 1980

## Recent Appointments

1999-present	Research Affiliate	MIT Auto-ID Center, MIT, Cambridge, MA
2014-present	Senior Scientist	MGH, Harvard Medical School, Cambridge, MA
2001-2010	Executive Director	MIT Forum for Supply Chain, MIT, Cambridge, MA
2013-2016	Senior Vice President	Industrial Internet Consortium

## Publications, closely related
