MIT-AITI
Entrepreneurship

Introduction:
What is entrepreneurship?

The process of creating a business enterprise capable of entering new or established markets by deploying resources and people in a unique way to develop a new organization.
Who is an entrepreneur?

- A person who creates and manages change by the recognition of opportunities (needs, wants, problems, and challenges) and develops people and manages resources to take advantage of the opportunity and creates a venture.
The importance of entrepreneurship

- Entrepreneurship is essential for the economic development of every country

- Through entrepreneurship, new ideas and inventions are developed and this enables continual improvement of societies and their organizations
Objectives of the entrepreneurship course

- Teach you the global interplay of producers and consumers
- Teach you how to identify opportunities in your community by looking at the needs and problems in your community
- Teach you how to manage the resources you have and to develop people in order to take advantage of the opportunities in your community
- Hopefully get you to be a producer !!!
Organization of the Course

- 8 entrepreneurship lectures
- 4 visiting speakers
- Entrepreneurship competition with a total of $1000 Prize money!!!
Student Groups

- Students in the class will be required to form groups and choose a name for the group.
- Members of a group should sit near each other during the class period to facilitate discussions.
- Each group will consist of at least 5 students but no more than 7 students.
- Students are required to choose a group with good dynamics i.e. people who bring different abilities to the group.
- The purpose of the group is to facilitate group learning and team experience.

- Part 8: Entrepreneurs and Social Change
  - Case Study: Johnson Development Corporation
Entrepreneurship
Speakers

- We will have local successful entrepreneurs visiting who will talk about their experience.
- Their lectures will have a Q and A session at the end so that students can ask them about any questions they may have.
The entrepreneurship competition

- Prizes will be for the best business plans that will be written by students/student group
- We will look at the potential of the business plan, its viability and whether the organization demonstrates that it can successfully undertake the venture.
- Submission date will be at the end of week 5.
- Total Prize money is $1000 and the competition is open to students in Ghana, Kenya and Ethiopia where MIT-AITI operates
- Winners will be announced in early September and they will receive the prize money and assigned mentors who will monitor their progress and advice them on how to make their ideas a reality
