Publications and Reports	xiv
Introduction	xviii

GENERAL PHYSICS

I.	Molecular Beams	1
	Multioptical Bench	1
II.	Microwave Spectroscopy	3
	Second-Harmonic Spectroscopy	3
III.	Radio Astronomy	5
	Height Resolution of Remote Sensing of the Atmospheric Temperature Profile	5
	Investigation of Microwave Radiometry as a Medical Diagnostic Technique	14
	Centimeter-Wavelength Interferometer-Aperture Synthesis Facility	18
	Aperture Synthesis of Extragalactic Objects	19
	Radiometer System for Ground-Based Measurement of Stratospheric Temperatures	23
	Ground-Based Observations of Upper Stratospheric Temperature	26
	Observations of Thermal Emission from Atmospheric O ₂ Lines	27
	Ozone and N ₂ O Measurements in the Atmosphere	29
IV.	Electrodynamics of Media	33
	Experiments on Room-Temperature TEA CO Laser	33

PLASMA DYNAMICS

V.	Plasmas and Controlled Nuclear Fusion	37
	Feedback Stabilization	37
	Feedback Effects on a Tearing Mode	37
	High-Temperature Plasma Physics	48
	Apparatus for Ion Temperature Measurement by Lyman Alpha Doppler Shift	48
	Current-Driven Modes in Two-Dimensional Plasma Configurations	55
	Electron Negative-Energy Modes in Two-Dimensional Plasmas	67

CONTENTS

VI.	Gaseous Electronics	73
	Electron Densities in an Argon-Ion Laser	73
VII.	Relativistic Beams	77
	Proposed Experiment for Heating a Magnetically Confined, Laser-Produced Plasma by an Intense Electron Beam	77
	Calibration of Self-Breaking, Stabbed, Solid-Dielectric Switches in the Cogen III Accelerator	79
VIII.	Applied Plasma Research	81
	Laser-Plasma Interactions	81
	Forced Mode Locking and Cavity Dumping of a TEA CO ₂ Laser	81
COMMUNICATION SCIENCES AND ENGINEERING		
IX.	Processing and Transmission of Information	87
	On the Number of Discrete Monotone Functions of k Integer Variables	87
	Derivation of a Testing Method for Repeat Request (RQ) Logic	89
	Sequential Detection of Signals Transmitted by a Quantum System (Equiprobable Binary Pure State)	89
X.	Detection and Estimation Theory	95
	Detection of Deep Seismic Reflectors Aboard the R/V Atlantis II	95
XI.	Speech Communication	103
	Some Network Properties of Digital Filters	103
XII.	Communications Biophysics	113
	Planning Telemedicine Systems	113
	Author Index	115
