

Discussion of Goldratt's *The Goal*

Stanley B. Gershwin, MIT/SMA*

November 27, 2001

Be prepared to discuss these questions in class!

Contents

1	What was the historical context of <i>The Goal</i>?	3
2	What are Goldratt's general principles and observations?	3
3	What quantities summarize plant performance?	4
3.1	What are the <i>indicators</i> of plant performance?	4
3.2	What are the <i>useful measurements</i> of plant performance?	4
4	What can we learn from the Boy Scout hike story and the match game?	4
4.1	Why does the Boy Scout troop spread out?	4
4.2	Analogies	4
4.3	What does it mean that lunch occurred at the wrong place?	5
4.4	What is the significance of Herbie?	5
4.5	The match game	5
4.6	Basic lesson	5
5	Bottlenecks	5
5.1	Definitions and characteristics	5
5.2	Why is time on the bottleneck worth more than \$2,000/hour at Alex's plant?	6
5.3	How do you make use of information about the bottleneck?	6
5.4	Explain Drum-Buffer-Rope.	6
5.5	Why was it a good idea to cut batch sizes at non-bottlenecks?	6

6 Interpretations **6**

6.1 Mathematically, what does Goldratt mean by “dependent events”? 6

6.2 Nine rules? 6

6.3 Is it a good idea to move the bottleneck to the upstream end of the line? 6

6.4 The biggest pile of inventory is just before the bottleneck. True or false? 7

6.5 Why did the company think that the new NC machine would help them when they bought it? 7

6.6 Is it clear what a bottleneck is? Can there be more than one bottleneck? Does a bottleneck sit still or does it move around? 7

7 Miscellany **7**

7.1 Why include the domestic drama? 7

7.2 Why does Alex drink so much? 7

7.3 What does the choice of characters’ names say about Goldratt’s observations of American society? 7

7.4 Who is Jonah? 7

7.5 What is the goal? 8
